

Deconstruction

C.V. Starr Community Center

Sigrid & Harry Spath Aquatic Facility

Have fun taking apart small appliances and electronics and making sculpture from the pieces. Using discarded and unwanted items we deconstruct and recycle everything from hair dryers and toasters to VCR's, CD players and telephones, carefully taking them apart, without breaking them. The result is a big pile of interesting small pieces. Using hot glue guns, we make 3 dimensional pieces of art.
