February/March 2011
Board Report

The Youth Basketball League is a huge success this year. Eric Barclay has taken on the over stuff with Juliet Anderson.

Men's Basketball League is going okay. I have had to kick a team out of the league this year. We have two from Ukiah and it's going okay, they are happy that I don't try and override them so they said they are happy to come over here.

We need to do more with the soccer programs - kid's and women's and men's. We will be charging a small fee because they run their programs.

I am working on field schedule stuff and softball season. I will be trying to have a coed tournament this year. I think I can save on some balls.

I am working on summer stuff (camps).
