This class is designed to work the arms legs and core (the back and belly) muscles to keep them strong. Using elastic bands and hand weights, in both sitting and standing positions, (your instructor will help you find your personal level) we will move through the body challenging the muscles to work. Sometime will also be spent safely practicing balance and concentration as well.

Yoga Mixed—(For stronger yoga students) Class starts with 5 minutes of pranayama (yogic breathing practice to strengthen and relax). Then moves on to a high energy flow of movement combined with the appropriate breath, called Surya namaskar or sun salutations. This includes forward and backward bends, standing and balance poses all taught with attention to alignment of the body. We finish the hour with challenging core work and seated and restorative poses.
